The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

U.S. Patent and Trademark Office PTOL-326 (Rev. 1-04) Office A	ction Summary Pa	art of Paper No./Mail Date 20050425				

Application/Control Number: 09/853,080

Art Unit: 1644

1. Claims 29-41 are pending.

2. Claims 31-33 and 39-41 stand withdrawn from further consideration pursuant to 37 CFR

1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking

claim. Election was made without traverse in the reply filed on 5-3-04.

3. The following new ground of rejection is necessitated by Applicant's amendment filed

1-31-05.

4. It is noted that Applicant's amendments to claims 29, 34 and 35 has caused the claims to

read upon any fragment of Factor VIII, as long as said fragment comprises the specific residues

recited in the claims.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the

basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on

sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 29-30 and 34-38 rejected under 35 U.S.C. 102(b) as being anticipated by

WO88/00831.

The '831 patent teaches an antigenic fragment of Human Factor VIII that encompasses

residues 2262-2270 of SEQ ID NO 49, as well as complexes of said fragment with a carrier in a

pharmaceutical composition (See page 10 and 15 in particular, the recited amino acid sequences

are found in the C-terminus of Human Factor VIII). Furthermore, the '831 patent teaches

modified fragments of Human Factor VIII, wherein an amino acid residue has deleted (see page

10 in particular).

The claimed invention is anticipated by the prior art teachings.

6. The nonstatutory double patenting rejection is based on a judicially created doctrine

grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or

improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 34-38 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of copending Application No. 11/039,373. Although the conflicting claims are not identical, they are not patentably distinct from each other because the '373 application recites 7 amino acid fragments in the same region as the instant applications recited fragments of Factor VIII, complexes of said fragments and pharmaceutical compositions of said fragments, wherein the '373 fragments would anticipate the broader claims of the instant application.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

8. It is noted the provisional double patenting rejection is a new ground of rejection, however applicant's filing of the new application, 11/039,373, necessitated the new rejection. In addition, since the current application is the Senior party, if all of the remaining issues are resolved in the instant application and the only remaining rejection is the provisional obvious type double patenting rejection the case will be passed to issue.

Art Unit: 1644

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
